Centers Highlight

Cybersecurity Analytic Center

The Cybersecurity Analytic Center (CAC) at Howard University has made significant strides in academic excellence, industry engagement, and student enrichment over the past year. With 57 students competing in the National Cyber League (NCL), Howard ranked in the top 95% nationally, showing a 76% improvement from the previous year. Graduates have secured roles at top firms such as Bank of America, Deloitte, and PwC, while others gained global experience through study abroad programs in Paris. Students have participated in major conferences, visited leading tech companies, and benefited from guest lectures by industry experts. Enrichment programs awarded over $72,000 in scholarships, supported student clubs, hosted workshops with 600+ attendees, and launched major initiatives like the Google Cybersecurity Clinic and the DOD Cyber Service Academy.
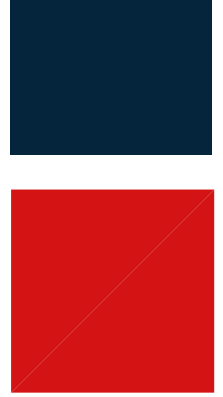

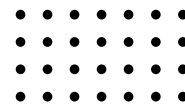

Top Achievements

OUTSTANDING PERFORMANCE IN NATIONAL CYBER LEAGUE COMPETITIONS

STRONG INDUSTRY CONNECTIONS AND CAREER PLACEMENTS

ROBUST STUDENT ENRICHMENT AND SCHOLARSHIP PROGRAMS

CAC Special Initiatives

2024-2025

The CAC launched impactful special initiatives, including the Google Cybersecurity Clinic in partnership with GMU Law and NSI, the tuition-free DOD Cyber Service Academy, and awarded ISACA Greater Washington scholarships of $3,000 each, advancing hands-on learning and access to high-impact career pathways.
